ABOUT accessIQ

Experience an intuitive and user-friendly Learning Management System that manages all your business needs. Designed and developed to meet the needs of a range of learning providers.

The Perks

Australian built with local technical and compliance support

Third part integrations powered by custom API development

Built for access, WC3 compliant and membership of Centre for Accessibility

A secure and encrypted database that can be used across all devices

Take advantage of innovations and the ability to request custom features

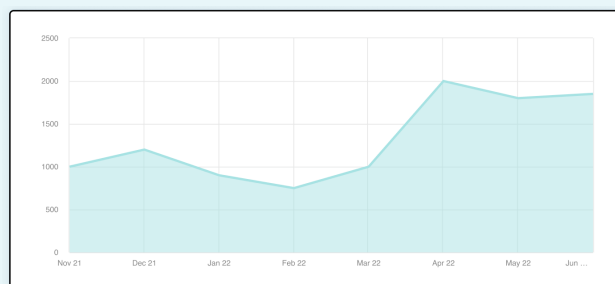

accessIQ for Students

Study anywhere, anytime and on your desktop and tablets. Learners can complete assessments and track results easily with our intuitive navigation system. Our learning console tracks:

- ✓ Billing and financial history
- ✓ Enrolments
- ✓ Online assessments & workshops
- ✓ Badges or certificates
- ✓ Notifications

accessIQ for Administrators

Real time reporting, track your learners' progress and activity, review performance, and gain immediate insight. Whether you are creating new message templates, managing users, adding new learners to a course/ workshop or updating due dates – all just a few clicks away with accessIQ.

accessIQ for Assessors

A flexible marking system to save you time. The user friendly interface will make it easier to track a students progress. Receive notifications when learners have completed an assessment and manage assessments by due date or course.

No paper clutter thanks to our innovative electronic sign-in and ability to mark questions or close off workshops with a click of a button.

PRICING

accessIQ has 5 levels of pricing available to clients. As you go up the levels, one new key feature is added to your subscription. Level 5 is available for pricing on application.

Level 1	Level 2	Level 3	Level 4	Level 5
We're just getting started	We're wanting a bit more	Now we're talking	Your one stop shop	All the bells and whistles
